TO: Honorable Mayor and City Council

FROM: Pat McGinnis, City Manager

SUBJECT: Purchase of Ice-Control Salt

SUPPORTING PERSONNEL: Rodney Russell, Director of Public Works

ACTION RECOMMENDED: Award a contract to Detroit Salt for the early delivery of 3,300 tons of ice-control salt at \$68.86 per ton, totaling \$227,238, and for a seasonal back-up of 1,000 tons at \$72.58 per ton, totaling \$72,580, to be supplied on an as-needed basis, and authorize the City Manager to execute all related documents on behalf of the city.

Each year, the city participates in the Michigan Delivering Extended Agreements Locally (MiDEAL) program to procure winter ice-control salt. This cooperative purchasing program offers significant cost savings by leveraging the State of Michigan's large volume purchasing power. The state bids include provisions for early deliveries and seasonal back-up quantities, supplied on an as-needed basis. Salt remains the most cost-effective deicing agent to ensure safe roadway travel during winter months.

In FY 2024-2025, the city purchased 700 tons of ice-control salt at \$69.32 per ton for early delivery and 1,000 tons at \$72.58 per ton for seasonal back-up. For FY 2025-2026, \$335,000 has been appropriated from Act 51 – Michigan Transportation Funds for salt purchases.

It is recommended that City Council award contracts to Detroit Salt for the early delivery of 3,300 tons of ice-control salt at \$68.86 per ton, totaling \$227,238, and for 1,000 tons of a seasonal back-up salt at \$72.58 per ton, totaling \$72,580, to be supplied on an as-needed basis; and authorize the City Manager to execute all related documents on behalf of the city.

FUNDING: Funds are budgeted and available for this purchase in the FY 2025-2026 Major Local Streets budgets.

See Schedules B & C.
1.2 Quality Assurance
The gradation shall be in accordance with the MDOT Specifications for Sodium Chloride (See Schedule B). The material shall also meet the requirements as referenced in the MDOT Materials Quality Assurance Procedures Manual. http://www.michigan.gov/mdot/0,4616,7-151-9622_11044_11367-207980--,00.html
1.3 Delivery and Acceptance
1.3.1 Time Frames
<u>EMERGENCY PREPAREDNESS</u>
In instances of extreme weather conditions, the State of Michigan, then MIDEAL members must be serviced first, before other customers.
<u>EARLY FILL & SEASONAL BACK-UP DELIVERIES</u>
a. The contractor is responsible for making sure the trucking is performed properly and in a timely manner. This includes shipping salt in trucks that are clean and dry. Failure to meet all delivery requirements may result in a fine and/or cancellation of the Contract and/or restriction of future bidding privileges with the State of Michigan.
b. MDOT deliveries will be accepted during delivery hours, as listed on the annual bidding document, unless alternate times have been mutually agreed to. All drop points must be contacted approximately 48 hours prior to delivery. All delivery dates must be approved by each drop point so proper staffing, equipment, and certification tests can be arranged. (See Deductions 1.3.7)
c. If a particular salt storage facility is capable of accepting inside delivery (minimum inside

clearance height of 26 feet), appropriate delivery trucks shall be used in order to allow for self-unloading inside the facility. (See Deductions 1.3.7)

EARLY FILL TIMEFRAMES

- d. All early fill salt deliveries to MDOT and MIDEAL members must be made by October 31st of each contract year. MDOT early fill road salt can be delivered starting October 1st. Exception; Select MDOT drop points may request early fill road salt be delivered starting September 1st. MIDEAL members early fill road salt can be delivered starting September 1st. MDOT and MIDEAL members reserves the right to impose a penalty on the Contractor for salt not delivered by October 31st of each contract year. If delivery orders do not occur by October 1st, the October 31st delivery deadline will be extended accordingly to guarantee a minimum 30 calendar day delivery window. (See Deductions 1.3.7)
- e. Once early fill salt deliveries begin for a drop point, deliveries must continue until that particular drop point has received the entire quantity specified on the delivery order, prior to moving to another drop point. Delivery of a drop point's total quantity must be completed within 10 business days of the date the delivery began. (See Deductions 1.3.7)

SEASONAL BACK-UP TIMEFRAMES

- f. Seasonal back-up delivery orders will be placed periodically (as needed) throughout the contract period, and all orders will be for minimum of 50 ton deliveries. Exception; unless a smaller amount is indicated on the annual bidding document.
- g. MDOT agrees to purchase a minimum of 80% of the quantities given in the annual bidding document. The contractor shall agree to furnish up to a maximum of 30% more than the quantities given in the annual bidding document. These percentages apply to the MDOT Region total awarded to the contractor, not each individual MDOT drop point within a MDOT Region that is awarded to the contractor. These percentages of the MDOT Region total awarded to the contractor may be distributed to any MDOT drop points within a certain MDOT Region that are awarded to the contractor. MDOT is not limited to these percentages per drop point. MDOT Regions are displayed in Schedule C, MDOT Regional Map. These percentages also apply to MIDEAL members, however, they apply to each individual drop point.
- h. All deliveries shall begin within three business days and must be completed within five business days after the request for shipment or order. The deliveries will occur between October 1st through August 31st of each Contract year. The day count begins on the first business day after the order is placed. Delivery shall be made by the following formula 30% must be delivered by close of business on business day three, a total of 60% must be delivered by close of business on business day four and the entire 100% must be delivered by close of business on business day five. (See Deductions 1.3.7)

1.3.2 Delivery Tickets

All salt to be delivered must be weighed on certified scales; the contractor shall, at their expense, have their scales certified and inspected, prior to beginning shipments, and on a monthly basis thereafter until all salt has been delivered. The certification and inspection shall be conducted by the specific scale manufacturer authorized service dealer. For Early Fill, the scales must be inspected and certified between August 15th and September 30th of every year. Copies of scale certification must be sent to the Program Manager or designee by October 15th of every year. For Seasonal Back Up, the scales must be inspected and certified between January 1st and February 15th of every year. Copies of scale certification must be sent to the Program Manager or designee by, March 1st of every year. The State can require re-certification of the scale, if a particular salt shipment is found to be +/- 1% off. In addition, all delivery tickets must be legible, computer generated, printed from a computerized scale, and in English units. All trucks shall be weighed empty, then weighed loaded, and the differential shall be the net weight recorded on the delivery

ticket. Scale operators shall not pre-enter estimated empty truck tare weights. Hand written tickets are unacceptable. Scales must be cleaned on a regular basis, i.e., daily or weekly if appropriate. Also, the dock shall be maintained on a regular interval, i.e., weekly/biweekly. Violation of any of the above requirements can be grounds for rejection of salt shipment. (See Deductions 1.3.7)

1.3.3 Inconsistent Deliveries

The state reserves the right to disallow the use of any dock, weigh station, trucking company, etc. that is used by the Contractor if it is discovered that there are inconsistencies regarding the quantity indicated on a delivery ticket and the actual amount received or verified by the re-weighing of a truck. MDOT has made arrangements with the appropriate enforcement authorities to increase the frequency of "spot checks" on trucks hauling salt to various delivery locations. If it is discovered that a particular delivery ticket exceeds the actual amount verified by re-weighing a truck, MDOT or the MiDEAL member will be instructed to pay based on the re-weigh quantity. The state will also seek the possible prosecution of companies that are found to be involved in a "short shipping" scheme designed to take advantage of the State of Michigan or any MiDEAL member included in this Contract.

1.3.4 Conveyor Deliveries

Please note certain locations may require conveyor delivery, as listed on the annual bidding document.

1.3.5 Delivery Term

Prices shall be "Free on Board (F.O.B.) Delivered and Unloaded". All costs associated with delivering salt to these drop points is included in each "Price per Ton." Other F.O.B. terms will not be accepted. Where the location allows, salt shall be unloaded inside the storage facility.

1.3.6 Trucking

All loads of regular salt must be covered by an industry standard mesh tarp. If a load is delivered uncovered, or with the incorrect covering the load may be rejected.

1.3.7 Deductions

EARLY FILL & SEASONAL BACK-UP DEDUCTIONS

- a. For any salt delivered after delivery hours, as listed on the annual bidding document, unless alternate times have been mutually agreed to, there will be a 25% deduction penalty.
- b. Failure to contact drop points approximately 48 hours prior to delivery will result in a 25% deduction penalty. If the Contractor can reasonably establish that it has made one or more unsuccessful attempts to contact the drop point at least 48 hours prior to delivery, the 25% deduction will be waived.
- c. No salt orders will be accepted outside of the drop point's delivery hours, when the receiving location is not staffed. If the Contractor ships outside delivery hours, it will be their responsibility to pick up the salt and redeliver during delivery hours at the Contractor's expense.
- d. All delivery tickets must be legible, generated and printed from a computerized scale. Exception; receiving locations will allow a written ticket in emergency situations. Following the emergency situation contractor must provide a computer generated ticket with tare

weight. Failure to present a computer-generated ticket will result in a 100% deduction penalty.

- e. If a particular salt storage facility is capable of accepting inside delivery (minimum inside clearance height of 26 feet), and appropriate delivery trucks are not utilized in order to allow for self-unloading inside the facility there will be a 50% deduction penalty. Alternatively, the receiving location can opt to have the salt picked up at the Contractor's expense.
- f. Any of the above or below penalties can be rendered void if mutually agreed upon by the Contractor and the receiving location.

EARLY FILL ONLY DEDUCTIONS

- g. For each drop point that does not receive their total early fill salt quantity by October 31st of each contract year, the contractor will be charged \$1,000 per business day late.
- h. For salt not delivered within 10 business days of the date the delivery began, for the undelivered portion of the salt that is late, there will be a 25% deduction penalty with increments of 5% per business day, not to exceed 50% overall.

SEASONAL BACK-UP ONLY DEDUCTIONS

- i. For any salt not delivered by the close of business of the third business day after the order is placed (30% required of the total ordered), there will be a 25% deduction penalty with increments of 5% per business day, not to exceed 50% of the total ordered. For any salt not received by the close of business of the fourth business day after the order is placed (60% required of the total ordered), the receiving location may notify the Contractor that they will purchase the undelivered balance of the total ordered from an alternate source. The Contractor shall be responsible for any excess cost associated with this purchase as compared to the contract price for that location. The volume of salt purchased from the alternate source shall count toward the receiving location's 80% minimum order requirement. The day count shall follow the example provided below. This deduction for seasonal back-up deliveries shall not be assessed for deliveries ordered after April 15th.

Example: At the close of business, as listed on the annual bidding document, unless an alternate delivery time has been mutually agreed to, on the third business day no salt, or less than 30% of the total ordered is delivered, a 25% deduction of the total ordered will be taken. On the fourth business day less than 60% of the total order has been delivered, an additional 5% deduction will be taken, on the fifth business day less than 100% of the total ordered has been delivered, and additional 5% deduction will be taken. For any subsequent business day that 100% of the salt ordered is not delivered an additional 5% deduction will be taken.

1.4 Proposal Pricing

1.4.1 Pricing

Contractors selected for the Pre – Qualified Vendor Program will be asked to provide pricing once a year throughout the course of the program. Prices quoted during the bid process will be firm for that particular year.

EARLY FILL & SEASONAL BACK-UP

Failure to meet all delivery requirements may result in a fine and/or cancellation of the Contract and/or restriction of future bidding privileges with the State of Michigan.
b. MDOT deliveries will be accepted during delivery hours, as listed on the annual bidding document, unless alternate times have been mutually agreed to. All drop points must be contacted approximately 48 hours prior to delivery. All delivery dates must be approved by each drop point so proper staffing, equipment, and certification tests can be arranged. (See Deductions 1.3.7)
c. If a particular salt storage facility is capable of accepting inside delivery (minimum inside

clearance height of 26 feet), appropriate delivery trucks shall be used in order to allow for self-unloading inside the facility. (See Deductions 1.3.7)

EARLY FILL TIMEFRAMES

- d. All early fill salt deliveries to MDOT and MIDEAL members must be made by October 31st of each contract year. MDOT early fill road salt can be delivered starting October 1st. Exception; Select MDOT drop points may request early fill road salt be delivered starting September 1st. MIDEAL members early fill road salt can be delivered starting September 1st. MDOT and MIDEAL members reserves the right to impose a penalty on the Contractor for salt not delivered by October 31st of each contract year. If delivery orders do not occur by October 1st, the October 31st delivery deadline will be extended accordingly to guarantee a minimum 30 calendar day delivery window. (See Deductions 1.3.7)
- e. Once early fill salt deliveries begin for a drop point, deliveries must continue until that particular drop point has received the entire quantity specified on the delivery order, prior to moving to another drop point. Delivery of a drop point's total quantity must be completed within 10 business days of the date the delivery began. (See Deductions 1.3.7)

SEASONAL BACK-UP TIMEFRAMES

- f. Seasonal back-up delivery orders will be placed periodically (as needed) throughout the contract period, and all orders will be for minimum of 50 ton deliveries. Exception; unless a smaller amount is indicated on the annual bidding document.
- g. MDOT agrees to purchase a minimum of 80% of the quantities given in the annual bidding document. The contractor shall agree to furnish up to a maximum of 30% more than the quantities given in the annual bidding document. These percentages apply to the MDOT Region total awarded to the contractor, not each individual MDOT drop point within a MDOT Region that is awarded to the contractor. These percentages of the MDOT Region total awarded to the contractor may be distributed to any MDOT drop points within a certain MDOT Region that are awarded to the contractor. MDOT is not limited to these percentages per drop point. MDOT Regions are displayed in Schedule C, MDOT Regional Map. These percentages also apply to MIDEAL members, however, they apply to each individual drop point.
- h. All deliveries shall begin within three business days and must be completed within five business days after the request for shipment or order. The deliveries will occur between October 1st through August 31st of each Contract year. The day count begins on the first business day after the order is placed. Delivery shall be made by the following formula 30% must be delivered by close of business on business day three, a total of 60% must be delivered by close of business on business day four and the entire 100% must be delivered by close of business on business day five. (See Deductions 1.3.7)

All salt to be delivered must be weighed on certified scales; the contractor shall, at their expense, have their scales certified and inspected, prior to beginning shipments, and on a monthly basis thereafter until all salt has been delivered. The certification and inspection shall be conducted by the specific scale manufacturer authorized service dealer. For Early Fill, the scales must be inspected and certified between August 15th and September 30th of every year. Copies of scale certification must be sent to the Program Manager or designee by October 15th of every year. For Seasonal Back Up, the scales must be inspected and certified between January 1st and February 15th of every year. Copies of scale certification must be sent to the Program Manager or designee by, March 1st of every year. The State can require re-certification of the scale, if a particular salt shipment is found to be +/- 1% off. In addition, all delivery tickets must be legible, computer generated, printed from a computerized scale, and in English units. All trucks shall be weighed empty, then weighed loaded, and the differential shall be the net weight recorded on the delivery

ticket. Scale operators shall not pre-enter estimated empty truck tare weights. Hand written tickets are unacceptable. Scales must be cleaned on a regular basis, i.e., daily or weekly if appropriate. Also, the dock shall be maintained on a regular interval, i.e., weekly/biweekly. Violation of any of the above requirements can be grounds for rejection of salt shipment. (See Deductions 1.3.7)

1.3.3 Inconsistent Deliveries

The state reserves the right to disallow the use of any dock, weigh station, trucking company, etc. that is used by the Contractor if it is discovered that there are inconsistencies regarding the quantity indicated on a delivery ticket and the actual amount received or verified by the re-weighing of a truck. MDOT has made arrangements with the appropriate enforcement authorities to increase the frequency of "spot checks" on trucks hauling salt to various delivery locations. If it is discovered that a particular delivery ticket exceeds the actual amount verified by re-weighing a truck, MDOT or the MiDEAL member will be instructed to pay based on the re-weigh quantity. The state will also seek the possible prosecution of companies that are found to be involved in a "short shipping" scheme designed to take advantage of the State of Michigan or any MiDEAL member included in this Contract.

1.3.4 Conveyor Deliveries

Please note certain locations may require conveyor delivery, as listed on the annual bidding document.

1.3.5 Delivery Term

Prices shall be "Free on Board (F.O.B.) Delivered and Unloaded". All costs associated with delivering salt to these drop points is included in each "Price per Ton." Other F.O.B. terms will not be accepted. Where the location allows, salt shall be unloaded inside the storage facility.

1.3.6 Trucking

All loads of regular salt must be covered by an industry standard mesh tarp. If a load is delivered uncovered, or with the incorrect covering the load may be rejected.

1.3.7 Deductions

EARLY FILL & SEASONAL BACK-UP DEDUCTIONS

- a. For any salt delivered after delivery hours, as listed on the annual bidding document, unless alternate times have been mutually agreed to, there will be a 25% deduction penalty.
- b. Failure to contact drop points approximately 48 hours prior to delivery will result in a 25% deduction penalty. If the Contractor can reasonably establish that it has made one or more unsuccessful attempts to contact the drop point at least 48 hours prior to delivery, the 25% deduction will be waived.
- c. No salt orders will be accepted outside of the drop point's delivery hours, when the receiving location is not staffed. If the Contractor ships outside delivery hours, it will be their responsibility to pick up the salt and redeliver during delivery hours at the Contractor's expense.
- d. All delivery tickets must be legible, generated and printed from a computerized scale. Exception; receiving locations will allow a written ticket in emergency situations. Following the emergency situation contractor must provide a computer generated ticket with tare

weight. Failure to present a computer-generated ticket will result in a 100% deduction penalty.

- e. If a particular salt storage facility is capable of accepting inside delivery (minimum inside clearance height of 26 feet), and appropriate delivery trucks are not utilized in order to allow for self-unloading inside the facility there will be a 50% deduction penalty. Alternatively, the receiving location can opt to have the salt picked up at the Contractor's expense.
- f. Any of the above or below penalties can be rendered void if mutually agreed upon by the Contractor and the receiving location.

EARLY FILL ONLY DEDUCTIONS

- g. For each drop point that does not receive their total early fill salt quantity by October 31st of each contract year, the contractor will be charged \$1,000 per business day late.
- h. For salt not delivered within 10 business days of the date the delivery began, for the undelivered portion of the salt that is late, there will be a 25% deduction penalty with increments of 5% per business day, not to exceed 50% overall.

SEASONAL BACK-UP ONLY DEDUCTIONS

- i. For any salt not delivered by the close of business of the third business day after the order is placed (30% required of the total ordered), there will be a 25% deduction penalty with increments of 5% per business day, not to exceed 50% of the total ordered. For any salt not received by the close of business of the fourth business day after the order is placed (60% required of the total ordered), the receiving location may notify the Contractor that they will purchase the undelivered balance of the total ordered from an alternate source. The Contractor shall be responsible for any excess cost associated with this purchase as compared to the contract price for that location. The volume of salt purchased from the alternate source shall count toward the receiving location's 80% minimum order requirement. The day count shall follow the example provided below. This deduction for seasonal back-up deliveries shall not be assessed for deliveries ordered after April 15th.

Example: At the close of business, as listed on the annual bidding document, unless an alternate delivery time has been mutually agreed to, on the third business day no salt, or less than 30% of the total ordered is delivered, a 25% deduction of the total ordered will be taken. On the fourth business day less than 60% of the total order has been delivered, an additional 5% deduction will be taken, on the fifth business day less than 100% of the total ordered has been delivered, and additional 5% deduction will be taken. For any subsequent business day that 100% of the salt ordered is not delivered an additional 5% deduction will be taken.

1.4 Proposal Pricing

1.4.1 Pricing

Contractors selected for the Pre – Qualified Vendor Program will be asked to provide pricing once a year throughout the course of the program. Prices quoted during the bid process will be firm for that particular year.

EARLY FILL & SEASONAL BACK-UP

The State expects that the unit prices of salt will be the same for all drop points in the same County. Exception; Seasonal Back-up in Wayne County can be bid by drop point.

MOST FAVORED CUSTOMER

The State, or any participating MIDEAL member expects to be considered the "Most Favored Customer" regarding salt purchased in the State. In other words, since the total quantity

expected to be purchased as a result of this Pre – Qualified Vendor Program far exceeds the quantity that may be purchased by any other government entity in the State, the State expects to receive the "best price" during the Contract period for all locations.
1.4.2 Tax Excluded from Price
a. Sales Tax: The State is exempt from sales tax for direct purchases. The Contractor's prices must not include sales tax. DTMB-Central Procurement will furnish exemption certificates for sales tax upon request. b. Federal Excise Tax: The State may be exempt from Federal Excise Tax, or the taxes may be reimbursable, if articles purchased under any resulting Contract are used for the State's exclusive use. Certificates showing exclusive use for the purposes of substantiating a tax-free, or tax-reimbursable sale will be sent upon request. If a sale is tax exempt or tax reimbursable under the Internal Revenue Code, the Contractor's prices must not include the Federal Excise Tax.
2.0 Packaging
Packaging and containers, etc., shall be in accordance with supplier's commercial practice and shall meet the requirements of the State and rail and motor carrier freight classifications in effect at time of shipment, which will permit application of the lowest freight rate.
2.1 Training

The State may cancel the pre-season meeting or request other meetings as it deems appropriate. b. In the event there are issues with the deliverables under this Contract, the Program Manager or designee, and the Contractor shall be afforded the opportunity to meet within three business days of request.
3. Staffing
3.1 Contractor Representative

The attached report from the LOCC to the City Council recommends that the annual compensation of City Councilmembers be raised by 9.4 percent to \$9,300 per year and the compensation of the Mayor be raised by 13.6 percent to \$12,500 per year for the next two years.

For informational purposes, according to section 117.5c of the State of Michigan Home Rule City Act, the determinations of the LOCC are effective 30 days following the formal filing with the City Clerk on August 19, 2025, unless rejected by a two-thirds majority of the members of the City Council. - \$8,500 per year for Councilmembers and \$11,000 per year for Mayor as of July 2023.

Commission Discussion

The commission believes there exists a need to fairly compensate the Mayor and the City Councilmembers. Commissioners reviewed the survey data compiled by the Office of the City Clerk staff, including various jurisdictions’ elected official pay, per citizen amounts, and per capita. The Commission then discussed the responsibilities of the Mayor and Councilmembers, whether there had been any changes to their job duties,

and their level of engagement in the past two years. The Commission also examined population growth and voter registration data as it pertained to citizens' expectations, as well as increased complexity for budget planning, community initiatives, and public communication. The wage adjustments provided to City staff of 5.0 percent for 2024 and 3.5 percent for 2025 were also discussed. Following the City Council's wage recommendation, the Commission voiced requests for future meetings to include more Portage-specific information, including City growth and developments, projects, City budget information, and five-year population trends for comparison jurisdictions.

Commission Determination

After discussion and deliberation on the subject for which the LOCC is charged, it is the determination of the Commission that the compensation of City Councilmembers be raised by 9.4 percent to \$9,300 per year and the compensation of the Mayor be raised by 13.6 percent to \$12,500 per year.
